More than 1,000,000 downloads in 160 countries

BlueSpice is a brand of Hallo Welt! GmbH. Our company was founded to make the technology and concepts of Wikipedia usable for companies. That's why we have been developing the collaborative knowledge management system BlueSpice since 2007. The platform is now used in more than 160 countries worldwide with over 1,000,000 downloads.

With our growing team of more than 35 employees, we develop solutions for knowledge and quality management, IT- and technical documentation as well as organization manuals and wiki-based customer service and support solutions. By providing a complete and relevant set of accompanying services, we ensure that wiki projects are carried out in a structured manner. We are committed to open source software and are one of the leading contributors to MediaWiki.
